| Most cost effective, no need to invest in different cleaners for different cleaning applications. | |

Spilcare Ecoclen is one of the essential products for its battle against viruses, germs and grease. What makes Spilcare Ecoclen, most unique is, it not only is a high performance cleaner, which washes away dirt, oils, grimes, bacteria and germs from surfaces but also has antimicrobial properties. All this is achieved without the use of harmful solvents, caustic alkali and other such toxic ingredients. The product has been tested for its cleaning performance as per IS 6047:2009 and antimicrobial properties by Tamilnadu Test House Pvt Ltd NABL accredited and Drug Control licensed Laboratory.

Spilcare Ecoclen is scientifically formulated for use in a wide range of household, institutional and industrial cleaning applications. Using cutting edge technology it offers the end user a powerful cleaner & antimicrobial product, without the environmental or personal hazards associated with traditional toxic chemistries. Spilcare Ecoclen provides an alternative for environmentally responsible and health conscious individuals and companies who appreciate and understand the need to use non-toxic and sustainable products

FUNCTIONAL & APPLICATION METHODS

1.) Floor Cleaning:

Spilcare Ecoclen can be used for washing away dirt, grime, oils, bacteria and viruses from different floor surfaces such as ceramic tiles, granite, concrete, flooring in commercial offices, homes and industries. This non corrosive detergent cleaner with antimicrobial functions is far more effective and safer than other floor cleaners and bleach. It is also biodegradable.

2.) Wood & Metal Furniture:

Mix one part of Spilcare Ecoclen to 20 parts of water. Spray lightly onto a damp non abrasive cloth or microfiber pad. Wipe clean, using a clean, damp, non-abrasive cloth or microfiber pad. Finally buff dry with a clean, non-abrasive cloth, microfiber pad or paper towel. Should not be used on unfinished or untreated wood.

3.) Glass Cleaning:

Can be used to remove smears, dirt and grime from both indoor and outdoor. Dilute one part of Spilcare APC-G with 40 parts of water and use from a spray bottle. Spray directly onto the surface.

4.) Other Applications:

Can be used for cleaning the exterior and interior areas of commercial and industrial buildings. For cleaning and pressure washing of shop floors, walls, service bays and hydraulic lifts. For cleaning of oil field equipments, storage tanks and pipelines.

Recommendation: For all the above applications it is recommended to spot test first on the surface to be cleaned
