

## SPILCARE ECOCLLEN

### A Multipurpose Cleaner-Green Chemistry

It's a high performance, fast acting water based heavy duty industrial maintenance cleaner scientifically formulated for use in a wide range of manufacturing and industrial cleaning applications. It provides an alternative for environmentally responsible companies who appreciate and understand the need to use non-toxic sustainable products. Using cutting edge technology, *Spilcare Ecoclen* offers the industrial user a powerful and effective cleaner & degreaser, without the environmental or personal hazards associated with traditional, toxic chemistries. It is cost effective, as you do not need to invest in different cleaners for different cleaning applications, and can be diluted. Spilcare Ecoclen is different from the other cleaners present in the market today.

The major differences being:

- ◆ Free from petroleum solvents and hazardous chemicals.
- ◆ Free of silicones.
- ◆ Free of caustics alkali.
- ◆ Contains 100% natural bio based surfactant(s).
- ◆ It is most safe to store and use.
- ◆ Readily biodegradable.
- ◆ Not a human carcinogen.
- ◆ Non-Toxic.

### MAIN APPLICATIONS

They are mainly used to degrease and clean automotive parts, oilfield equipment, machined parts, industrial machinery and other difficult-to-clean surfaces. Some potential uses are:

- ❖ Cleaning of inner and outer railway wagon tanks, which store and transport oils.

- ❖ Cleaning and pressure washing of shop floors, walls, service bays and hydraulic lifts.
- ❖ Cleaning of petroleum and non -petroleum tanks and oiled pipelines.
- ❖ Building Maintenance and contract cleaning. Cleaning the exterior and interior areas of commercial and industrial buildings.
- ❖ Construction Industry: Constructing buildings, dams, highways, roads and other public works projects and maintaining construction equipment's (Front loaders, tractors, graders, cranes and forklifts).
- ❖ Electronics Manufacture & Repair. Degreasing generators and other rotating electrical equipment.

### PACKAGING

- In 210 ltrs HMHDPE drums.
- 20 ltrs carbuoys.
- 1000 ltrs IBC Containers
